Corporate Massage Program

Would you like to see an increase in employee productivity? Would you like to see a decrease in employee absenteeism? Are you employees under a lot of stress?

If you answered yes to any of these questions; then your company needs us!

In numerous publications, including *Prevention Magazine* (Dec 1990), massage is referred to as a proven technique for the reduction of both physical and mental stress.

Full Throttle Massage, Inc. has an on-site Corporate Massage Program. Our program provides on site chair massage for stress management in the workplace. It helps build positive morale which translates to a happier, healthier and more productive work force. More and more companies are realizing that on-site chair massage is not just a perk, but an essential and cost effective way to increase employee morale and productivity.

How It Works

You provide us with a private space large enough to accommodate our therapists and their equipment. This can be a break room that is made off limits to traffic while we are at your company. It can be a conference room or empty office. We are flexible, but it should be an area that offers peace and quite.

- We arrive at your company prepared to give chair massages to all of your employees who desire to receive one.
- You provide your employees with adequate time to receive their massage.
- Typically this is 10 or 15 minutes per employee. Plus the travel time to and from the employees work station.

Benefits Of Chair Massage

- Relieves stress, tension, and headaches.
- Boosts morale, which increases productivity.
- Reduces absenteeism, which lowers health care costs.
- Decreases RSS (Repetitive Stress Syndrome) such as Carpal Tunnel Syndrome and Tendonitis.

Corporate Massage Program

How Much Does This Service Cost?

We offer three payment options:

- 1) Your company pays for the employees massage. (100% tax deductible*)
- 2) Your company splits the cost with your employees. (Partial tax deduction*)
- 3) Your employees pay for their massage. (no tax deduction*)

Option #1 - shows your employees that you care about their health and well-being. We have a flat rate for this option. The flat rate depends on the estimated number of massages and length of time we will be at your company. The rate is \$8 per employee for a ten minute chair massage.

Option #2 - is a cost effective way to still express your company's concerns about their health and well-being. This option is limited to payment per massage. It can be split any way your company wishes. Typically it is a 50-50 split. Your company pays for half of each employees massage; and the individual employee pays for the other half of their massage. The rate is \$1.00 per minute with a ten minute minimum.

Option #3 - This option requires that a sign-up sheet must be provided to your employees prior to our arrival. Preferably giving your employees a one week notice. This helps ensure they will be prepared to receive and pay for their massage. The rate is \$1.00 per minute with a ten minute minimum.

How Often Will You Come?

We will come as often as you would like. This can be weekly, bi-weekly, monthly, or bi-monthly.
